

Welcome to the 2018-2019 school year. I am honored to be the superintendent here at Summersville R-2 School District and am thankful to those of you who support and appreciate our efforts. There are some truly great people in this community and at this school district. Please feel free to contact me anytime if you have questions, concerns, or ideas for improving educational services or school programs. I hope the school website is helpful to you. We maintain a district website, as well as a Facebook page to convey information. Be sure to contact me if you have ideas for improving either of these communication tools.

We have a caring group of staff members at Summersville R-2 School District whose goal is to partner with parents and community members to deliver a high quality education to all students. I want to see all students be successful and reach their full potential no matter what their future plans are or what skills they possess. Whether you already have children who attend Summersville R-2 School District or are exploring your educational options, I assure you that this district is committed to continual improvement, rigorous academic programs, character development, facility upgrades, student success, and overall excellence in all co-curricular and extracurricular activities. We also stress the belief that students should be able to communicate effectively in written and spoken forms, comprehend what they read, think critically, exhibit creativity, solve various problems, organize ideas, work with others, and be prepared for a rapidly changing world and changing technologies.

On behalf of the School Board, administration, and staff, thanks for visiting. Hopefully, we will all be blessed with a successful school year, as well as quality programs and facilities into the future. Thank you.

Mr. Stark
